FOR IMMEDIATE RELEASE

Rio Vista Bridge Scheduled for One-Way Traffic Control

SACRAMENTO, YOLO, SOLONO, CONTRA COSTA AND SAN JOAQUIN COUNTIES – The California Department of Transportation (Caltrans) is advising motorists to expect delays on State Highways 12 and 160 due to maintenance work scheduled on the Rio Vista Bridge. One way traffic control will be in effect.

Beginning September 21 through October 2 the Rio Vista Bridge will be under one way traffic control using flagging stations and pilot cars from 9PM – 6AM Sunday through Friday. The intersection of Highways 12 and 160 will be included in the traffic control. Delays up to 30 minutes are to be expected. This work will NOT interfere with the Rio Vista Bass Festival to be held the week of October 16.

The Coast Guard has granted approval for the work on the lift span and pedestrians will not be allowed to cross without assistance during traffic control operations. The California Highway Patrol (CHP) will be present at all times.
